RE: Mobility Manager Work Plan

Background

Each year, MRCC reviews and approves a Mobility Manager Work Plan to ensure that the work of the Mobility Manager supports its goals and priorities. The current Mobility Manager Work Plan was approved on August 19, 2025 and it covered a period from July 1, 2025 through June 30, 2026.

Last month's meeting packet included a document displaying suggested updates as red-lined suggestions provided by Lisa Steadman and J.B. Mack. MRCC members were asked to respond to Lisa Steadman with additional thoughts so she could incorporate the feedback into this draft.

Recommendation

Review the draft document and discuss and approve an updated Mobility Manager Work Plan covering a period from July 1, 2026 through June 30, 2027 and set reviews to occur every two years thereafter in alignment with the FTA 5310 grant award cycle.
